Dear Dr XXX:

Your manuscript entitled "MODELING OF DUST EXPLOSION IN THE INDUSTRIAL SPRAY DRYER" which you submitted to Drying Technology, has been reviewed. The referee comments are included at the bottom of this letter.

As you can see from the comments listed below, the manuscript is not accepted for publication in its present form. However, I invite you to consider revising your manuscript considering all the reviewers' comments and resubmit it for reevaluation.

If you should decide to revise your manuscript, please include in the package your itemized response to the reviewers' comments. If the reviewers' comments are not responded adequately or rebuttal on changes not made is not given, the manuscript may not again be accepted for publication.

As one of the reviewers' comments in regarding the quality of English writing, please also have the manuscript checked carefully for this shortcoming, probably with the help of a professional English editor.

To submit the revision, log into <http://mc.manuscriptcentral.com/ldrt> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision." Your manuscript number has been appended to denote a revision. Please enter your responses to the comments made by the referee(s) in the space provided. You can use this space to document any changes you made to the original manuscript. Please be as specific as possible in your response to the referee(s).

**IMPORTANT:** Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.

Because we are trying to facilitate timely publication of manuscripts submitted to Drying Technology, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to Drying Technology and I look forward to receiving your revision.

Sincerely,

Guest Editors (ADC2011 Special Issue)
